

## National Instant Criminal Background Check System (NICS) Section

### NICS Denial Notification Act of 2022

The Consolidated Appropriations Act of 2022 (hereinafter “Act”) was signed into law into March 15, 2022. Section 1011 of the Act, included the “NICS Denial Notification Act of 2022.” The Act requires the Attorney General to report background check denials to state authorities and will require the FBI CJIS Division’s NICS Section to make notification to state, local, or tribal law enforcement of all FBI NICS denied transactions within 24 hours beginning October 1, 2022. The notification will include the date and time of the denial, the reason for the denial, the location of the federal firearms licensee (FFL), and the identity of the individual. If at any time, the original denial is changed to a proceed, an updated notification to those agencies originally notified will be required.

### Notification Process

Denial notifications will be delivered to the appropriate law enforcement agency based on the city, state, county, and zip code combination of the FFL location and the city, state, county, and zip code combination of the attempted transferee’s home address when different. Denial notifications will be delivered via an NCIC \$.H.NDN unsolicited message. The use of the International Justice and Public Safety Information Sharing System Network administration message is available for states who cannot deliver the \$.H.NDN unsolicited message to law enforcement agencies at this time.

All available information relating to the denial is delivered in the notification. The NICS Section is unable to provide additional information relating to the individual or the record related to the reason for the denial.

#### Attempted Transferee

*Denied by NICS*

*Notification to  
law enforcement*

### Deconfliction Information

The Bureau of Alcohol, Tobacco, Firearms and Explosives actively investigates certain denials made based on federal prohibitions. The NICS denial notifications are delivered containing a caveat to assist with potential deconfliction that could be needed for investigation prior to an agency taking any necessary action. State, local, or tribal agencies may also have deconfliction procedures in place that agencies should consider as well. There is no legislative requirement for any action placed on the receiving agency and the NICS Section is not requesting any action to be taken based on receipt of a denial notification. Each state and/or agency is responsible for establishing any necessary policy/procedure related to the denial notifications in accordance with their authorities. To determine if your state has a policy in place, contact your respective CJIS systems agency or local agency administration for proper guidance and handling of the denial
